

New laws for the accident towing industry

INDUSTRY INFORMATION SESSIONS
DECEMBER 1 - DECEMBER 12 2008

If you work in the accident towing industry, then you need to know about the new laws relating to accident towing, which start on 1 January 2009.

The new laws apply to tow truck licence holders and tow truck drivers, and to people who work in a depot as a coordinator or manager of depot operations and activities.

To help you understand the new laws and how they will affect your business or your job, a series of **free** information sessions will be run by VicRoads across Victoria. The sessions will provide an overview of the new laws including:

- changes to the law for tow truck license holders
- changes to the law for accident tow truck drivers
- accreditation of tow truck operators, depot managers and drivers
- compliance and enforcement

There will be an opportunity to ask questions at the sessions.

Please choose a location and date that suits you.
