Storage Charges

Dear VACC member

On behalf of Ken Eagle, Chair of the VACC Towing Operators Division, and his executive committee, VACC is very pleased to announce a substantial increase in storage rates for Towing operators. VicRoads has published the new rates effective from yesterday.

The following maximum rates apply for secure storage of accident damaged motor vehicles in the Melbourne controlled area. Fees quoted are per day.

Storage type	Charge
Car - under cover	\$25.00
Car - in locked yard	\$16.90
Motorcycle - under cover	\$8.25
Motorcycle - in locked yard	\$5.30

Note: All the above charges include GST

Please go to the official VicRoads websites to keep abreast of these changes: <https://www.vicroads.vic.gov.au/business-and-industry/tow-truck-industry/licence-and-towing-fees>.

Given, that the fair and reasonable test for determining a commercial rate for storage, often used by adjudicators is the VicRoads published rate, this increase means that all VACC members gain financial relief from the previous low storage rate.
